

TO: All Residents of Nagle Apartments

FROM: Justin Verret

RE: Time Warner Cable

Please be advised that the building has entered into a discounted rate program with Time Warner Cable for TV and Internet. The discounted fee is \$79.95 plus taxes and fees and includes the HD television service, Turbo internet, one set top box, one modem, and one remote control. Any additional services are billed to you individually by TWC. The billing takes effect March 1, 2014. For anyone who has already received their March statement you will see the changes reflected in the following month's statement including credits retroactive to March 1st. If you receive your bill in March, the new rates will be applied. If you have any questions you need to contact TWC directly. The co-op and management do not handle the billing for cable or internet services.
