RE: Roof Deck Construction  
Commencing April 4th

Please be advised that the roof deck project is officially commencing on Monday April 4<sup>th</sup>. During that week, materials will be started to be loaded in and some of the base work will be starting. Over the following weeks the full construction will be taking place.

The garage roof will have to be closed during the majority of construction other than for emergency access or basement access to 14 Bogardus from the street side ramp. The ramp will be temporarily closed at times but those times will be posted separately. If you need assistance at any time please let the building staff know.

There is minimal demolition involved so it should not be as loud as the garage project and dust should be minimal. The contractors will be cutting materials including wood and stone so a power saw will be in use at times.

The project is scheduled to be completed by Memorial Day weekend so that the roof deck will be fully opened for the summer months. If you have any questions please contact me [jverret@bluewoodsmgmt.com](mailto:jverret@bluewoodsmgmt.com).
